

COVID-19 TEST
Authorized by National Public Health Laboratory (NPHL), Nepal
MICROBIOLOGY REPORT

Swostha Id : NPL10046270	Order No: ORD58183
Patient Name : Mr ANIL MKUMAR SHRESRHA	Referral: GREEN CITY HOSPITAL
Address : KATHMANDU Ward 5 Tarakeshwor Municipality	Sample Id: 019774
DOB/Age : 1993-11-17 /27Y 3D	Gender : MALE
Nationality No :	Passport No :
Phone No :	Mobile No: 9849854930
	Sample Collected On: 17/11/2020 12:23
	Sample Type: Nasopharyngeal
	Reported Date & Time : 17/11/2020 22:23

INVESTIGATION	RESULT
<u>COVID-19 (SARS-CoV-2) RT-PCR</u>	
N gene (Nasopharyngeal , RT PCR)	31.05
ORF-1ab (Nasopharyngeal , RT PCR)	32.82
FINAL RESULT (Nasopharyngeal , RT-PCR)	Positive

NOTE :

- . Test was done on WHO Listed and USFDA/EUA/CE approved kits and under National guidelines.
- . Negative result does not rule out the possibilities of COVID-19 infection specially if clinical suspicion is high. The combination of clinical symptoms, typical CT imaging features, and dynamic changes must be considered and test repeated after few days
